DATE: 4/10/14

FROM: Beth Soliere, Executive Aide

SUBJECT: In the Matter of Arizona Water Company's (now EPCOR) Application for an increase in rates for its water services in Docket No. W-01303A-10-0448,
[REDACTED] and [REDACTED]

Last Monday, the Chairman and the Commissioners received petitions signed by over 1,100 individuals setting out their concerns related to EPCOR's rates and charges for water and wastewater services. Included with the signed petitions delivered to the Chairman and Commissioners, was the attached letter signed by Diane Smith and Doug Edwards, Chair and Vice Chair of the GAC Committee CB HOA, as well as Fran Noe. The letter reflects the same language found in the signed petitions. Attached is a list of the names of the over 1,100 individuals who signed the petition.

Re: AGUA FRIA DISTRICT REQUEST TO DECONSOLIDATE

First we were few, now we are many. The communities of Corte Bella, Cross River, Dos Rios, and Coldwater Ranch have come together to respectfully petition the Arizona Corporation Commission, its commissioners, and the Residential Utility Consumer Office to initiate a proceeding to deconsolidate Corte Bella, Cross River, Dos Rios, and Coldwater Ranch from the Agua Fria Water/Wastewater District ("Aqua Fria District") and join it with the Sun City West Water/Wastewater District ("SCW District"). Corte Bella previously delivered over 1300 similar petitions on March 7, 2014. Cross River, Dos Rios, and Coldwater Ranch delivered over 100 letters on February 25, 2014 (expressing our residents' emotion and financial impact due to the excessive water bills). We are herewith submitting 1100 signed petitions for deconsolidation.

The petition is based on the following:

1. There is no substantial reason for the continued consolidation of Corte Bella, Cross River, Dos Rios, and Coldwater Ranch, which are geographically distant and physically unconnected to the Aqua Fria District.
2. Consolidation of Corte Bella, Cross River, Dos Rios, and Coldwater Ranch in the Aqua Fria District is inconsistent with cost of service ratemaking principles (who uses service pays for service) and contrary to good public policy that requires correct assignment of cost responsibilities.
3. Consolidation of Corte Bella, Cross River, Dos Rios, and Coldwater Ranch in the Aqua Fria District does not result in fair, just, and reasonable rates. Corte Bella, Cross River, Dos Rios, and Coldwater Ranch do not use, nor can we use, the facilities, which resulted in the disparity in rates due to geographical separation, and no interconnection facilities.
4. Anthem has been deconsolidated. The factors are identical. As a matter of fairness, Corte Bella, Cross River, Dos Rios, and Coldwater Ranch must be deconsolidated.
5. Our water/wastewater rates have more than doubled in the last three years. These rates are a discriminatory practice being applied to homes located in an unincorporated area known as a Maricopa County island. This discrimination affects the lives of senior citizens and the disabled as well as all residents. We are paying the highest water/wastewater rates in the state of Arizona. Our water/wastewater rates are extreme, unfair, and not justified.

Attached are charts of our water/wastewater rates. Our rates are the second highest in the United States, only the rates for the City of San Francisco are higher.

http://phoenix.gov/webcms/groups/internet/@inter/@dept/@fin/documents/web_content/097376.pdf.

Who wants that distinction? We are being penalized and carved out due to the deconsolidation of Anthem and the costs were passed on to us causing a domino effect.

No other water district was affected by Anthem's deconsolidation. In many instances, our water bills are higher than our electric bills. Our bills do not even "include" garbage pick-up. We conserve water usage; however, our bills still continue to rise.

Additionally, EPCOR's billing practices are inconsistent, i.e., remote readers not working; residents being overbilled significantly one month and credited the next month (which causes a financial burden on residents' budgets); billings for same exact amounts to the penny each month for several billing periods; and different rates depending on meter sizing (3/4" vs. 1").

Commissioner Susan Bitter-Smith emphasized in an article published on AZ Central.com 9/1/2013 (copy of article attached) as follows: By Susan Bitter Smith My Turn Sun. Sep 1, 2013 6:52 PM

"Under the new System Improvement Benefits approach, water companies will be required to provide updates on infrastructure improvements and customers will get the financial benefit of an efficiency credit on their bills.

Water rates and infrastructure needs are not usually the topic at neighborhood block parties or the family dinner table.

Arizona residents have the expectation that when they turn on the tap or the garden hose, safe water will appear.

It is an expectation that the Corporation Commission does not take lightly, which is why this recent decision is so vital to the success of Arizona's future water deliveries.

Not only can Arizonans rely on the fact that water will continue to arrive safely and continually, they also now will know that they will not experience sticker shock on their bills for the privilege of receiving the necessary commodity of water."

Not only do our communities/families talk about this on a daily basis, but many times our water/wastewater costs are the only topic of conversation. Residents are concerned that potential buyers will avoid our area due to the excessive water/wastewater bills. It is feared that this area will become a ghost town. Folks will just walk away because of our extremely high EPCOR water/wastewater bills. Moreover, we are due an additional water rate increase of 9+% in July and another wastewater increase in January 2015.

We are requesting your consideration and support regarding this desperate situation.

Sincerely,

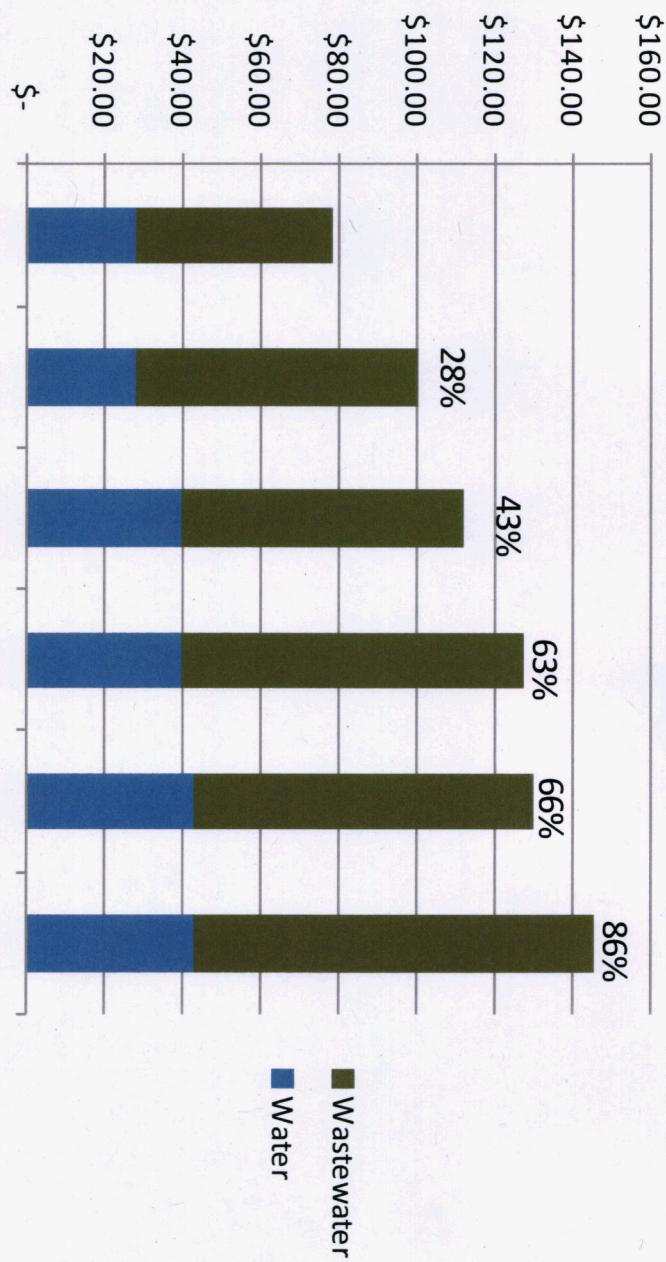

Diane Smith- Chairperson GAC CB HOA (623-566-6155) skylar_98@q.com
Doug Edwards-Vice-Chair GAC CB HOA (623-561-9170) d.edwards795@yahoo.com

Arizona Corporation Commission
1200 W. Washington Street
Phoenix, AZ 85007

Dear Corporation Commissioners:

At a recent HOA meeting it was brought to my attention that a discrepancy in water/wastewater rates in the northwest valley exists. Several unincorporated communities (Cross River, Dos Rios, Coldwater Ranch, and Corte Belle) feel their rates are disproportionately higher than others in the surrounding areas.

I know you have heard from various elected officials regarding this situation and are well aware other the residents' concerns and unanswered questions. I want to support the Arizona Corporation Commissions' consideration and review of the Water/Wastewater rate for these communities.

I want to thank you in advance of your time researching this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Clint Hickman".

Clint Hickman

By Susan Bitter Smith My Turn Sun Sep 1, 2013 6:52 PM

This summer, the Arizona Corporation Commission enacted a historic reform that will help ensure that all Arizonans have a secure and affordable water future.

A new rate-making mechanism called System Improvement Benefits will address Arizona's severe water-infrastructure needs without causing rate shock for customers. More than 400 private water companies provide service in Arizona. Many of these companies have existed since the early days of statehood. The American Water Works Association estimates there is more than \$30 million of needed major infrastructure replacement in the West, much of which is in Arizona. That does not include the minor distribution plant that is so vital to the viability of small companies in rural parts of our state.

That same study indicates that in Tucson alone, anticipated infrastructure replacement and repair costs per household in 2015 is almost \$100,000.

Reliable and affordable water delivery is vital to our state and the Corporation Commission spends the majority of its time dealing with water-company issues. That might surprise many people given the current focus in the media on the energy issues before the Commission.

Small rural areas of Arizona are greatly impacted by infrastructure needs because people are spread out and there are more miles per customer of plant that must be maintained. Many of these small companies serve as few as 50 customers, leaving very little margin to operate.

Water utilities are natural monopolies because of the large investment required to put pipe networks in the ground.

This means it is virtually impossible to have more than one provider of water service within a given area. Many of Arizona's private water companies evolved over time as early owners of a well gradually agreed to provide water delivery to their neighbors as new residents arrived. Over time, a neighborly gesture of providing water service resulted in the creation of a water utility.

Water-utility status creates great responsibility. After all, this is a utility that is delivering a commodity that we are all ingesting.

Ensuring the quality of drinking water is a key requirement for a water provider.

Repaired and updated infrastructure is a necessity for that requirement to be met.

Under the new System Improvement Benefits approach, water companies will be required to provide updates on infrastructure improvements and customers will get the financial benefit of an efficiency credit on their bills.

Water rates and infrastructure needs are not usually the topic at neighborhood block parties or the family dinner table.

Arizona residents have the expectation that when they turn on the tap or the garden hose, safe water will appear.

It is an expectation that the Corporation Commission does not take lightly, which is why this recent decision is so vital to the success of Arizona's future water deliveries.

Not only can Arizonans rely on the fact that water will continue to arrive safely and continually, they also now will know that they will not experience sticker shock on their bills for the privilege of receiving the necessary commodity of water.
